**Stuff...**

It has been said that "life is made of STUFF". It is the incessant need for "stuff" that drives many people. The desire to have MORE "stuff" and obtain MORE "stuff" is what causes many people to wander away from relationships, jobs, responsibilities and even God. God wants to meet our every need. We are a people made with many needs. From clothing, to food and love and warmth... we need, need, need. The resource that we have in God guarantees that all the "stuff" that you and I could ever need, is found in him, according to Philippians 4:19, "But my God shall supply all your need according to his riches in glory by Christ Jesus." – God never intended on us getting attached to STUFF... to rely on STUFF or to allow our lives to be controlled by STUFF. God's desire is for you and I to not trust STUFF.
